

Progetto Bandiera La Fabbrica del Futuro

Graduatoria relativa al bando di invito a presentare progetti di realizzazione prototipo nell'ambito del Sottoprogetto 1 e 2 del Progetto Bandiera "La Fabbrica del Futuro"

LISTA A

Punteggio	Stato	Acronimo	Titolo
5	APPROVATO	X-Drone2	Improved Haptic-guided UAV for detection and identification of radioactive materials
5	APPROVATO	AUTOSPIN	Automated electrospinning plant for industrial manufacturing of functional composite nanofibres
5	APPROVATO	IC+	Imaging Citometry in Plastic Ultra-mobile Systems
5	APPROVATO	PCB-ID	In-line automated device for the identification of components and the characterization of materials and value in waste PCBs
4,5	APPROVATO	THESIS	Thermally Improved Heat Exchangers prototypes with Superhydrophobic Internal Surfaces: new assembly procedures and materials
4,5	APPROVATO	WEEE ReFlex CPS	Cyber-Physical System (CPS) for reconfigurable e-waste recycling processes
4,5	APPROVATO	APPOS	Axial Piston Pump Prototype Assembled with Oleophobic Surfaces Components
4	APPROVATO	Pro2ReFix	Product and Process Co-Evolution Management via Reconfigurable Fixtures
4	APPROVATO	ProBioType	Prototyping ProBioPol results
4	APPROVATO	Rolling CIGS	Roll-to-roll deposition of flexible CIGS-based solar cells
3,5	APPROVATO	F@H for 3D plates	Fab@Hospital for bone plate fabrication and patient anatomy reconstruction using rapid prototyping technologies
3	APPROVATO	CD-NET	Tool for Customer-driven Supply Networks configuration
1,5	NON APPROVATO	AWESOME	Advanced and WEearable SOLutions for human Machine interaction with Enhanced capabilities

LISTA B

Punteggio	Stato	Acronimo	Titolo
4	APPROVATO	ShredIT	Self-Optimizing Shredding Station for Demanufacturing Plants
3,5	APPROVATO	ProBioType II	Prototyping ProBioPol Results II (UV/TiO2 Photocatalytic Reactor)
